

Autism Shelter-and-Play Social Action Project

By Kelsey, Liana, Ignacio, Ayaila, Jasmine, Samantha

Elementary Age

SPED 691 - Autism in the Contemporary World (Fall 2020)

Our Project

For this assignment we decided to incorporate the outdoors since we know families, as of now, are spending a lot of time inside their homes to reduce the spread of COVID-19. Specifically, we chose to have our participants venture out in nature to find items that could be used for learning or for fun. This activity is intended to promote an outdoor learning experience for elementary school aged children on the spectrum and their parents/ guardians.

Shelter and Play!

An interactive project for
elementary school children
on the autism spectrum

Let's Adventure!

Purpose of Activity

Why should you and your child participate in this activity?:

1. To get your blood flowing
2. To get some fresh air
3. To bond with your child in nature
4. To expand your child's outdoor experiences
5. To have some fun

Activity Description

Don't forget
your mask!

Nature walk | Scavenger hunt | Photo upload

A large, rounded green shape containing text, flanked by decorative illustrations of various leaves and a red flower on the left, and more leaves and berries on the right.

The goal for this activity is to go on a walk, find some or all of the items listed in the next slide, and capture & upload a photo after you're done!

Ready?

Let's Go!

[Back](#)

5. 5 Blades of green grass
4. 4 Leaves from any tree
3. 3 Rocks/Pebbles
2. 2 Branches
1. 1 of the prettiest flowers you can find!

[All Done?
Click Here!](#)

Find the item
& capture a
photo!

Add your photos to the following slides

Now What's Next

Congrats! You have found all of the items! Here's what you do next:

1. Lay out your items
2. Take individual photos of each category you found
3. Upload the photos to the following slides
4. Add your name near your photos
5. Don't forget to leave room for others!
